

## Year 1960

### TP6-500 - Just Right Turnips

#### **1960 All-America Selections Winner!**

50 days. Brassica rapa. (F1) This early maturing plant produces good yields of 4 ½ to 6" diameter turnips. The skin and flesh are pure white! It has mild flavored roots and delicious greens. Extremely cold tolerant. Stores well. Will store until spring. Sow in summer/fall for fall/winter harvests. It is not recommended for spring sowing because of a tendency to bolt early. Excellent choice for home gardens and market growers.
