

Radishes

RD51-100 - Fire Candle Radishes

40 days. *Raphanus sativus*. Open Pollinated. The plant produces high yields of 9" long red radishes. They are crisp and flavorful. It looks more like a carrot than a radish. It tastes better and sweetest in cooler conditions in spring and late autumn. Excellent for salads, vegetable platters, and garnishes. Replant every two weeks for a continuous crop. Excellent choice for home gardens and market growers. An heirloom variety from Italy.
