# Peppers (Hot)

# **HP2435-10 - Bambino Hot Peppers**

80 days. Capsicum annuum. (F1) The plant produces high yields of 2 ½" long Jalapeno peppers. Peppers are hot, have thick flesh, and turn from dark green to deep red when mature. Usually used when green. The plant has green stems, green leaves, and white flowers. Does well in hot and humid conditions. Excellent fresh use, for pickling, making salsa, hot sauce, and seasoning spice powder. Heat Tolerant. An excellent

choice for home gardens, farmer's markets, market growers, open production, and commercial production. A variety from the USA. Disease Resistant: BLS.

#### **HP1897-10 - Black Pearl Hot Peppers**

#### 2006 All-America Selections Winner!

90 days. Capsicum annuum. (F1) The plant produces good yields of shiny black ornamental hot peppers. Peppers are hot, grow upright, and turn from black to red when mature. The plant has black leaves, black stems, and white flowers. Does well in regions where there are high heat and humidity. A beautiful ornamental pepper

plant suitable for indoor pots. Scoville Heat Units: 30,000.

# **HP2440-10 - Chili Pie Hot Peppers**

#### 2017 All-America Selections Winner!

70 days. Capsicum annuum. (F1) This early maturing plant produces high yields of large 2" long by 2 ½" wide mini hot bell peppers. Peppers are mildly hot, have thick walls, and turn from green to red when mature. The plant has green stems, dark green leaves, and white flowers. Great fresh, stuffed, or used for cooking. The plants yield

approximately 25 to 30 fruit each and are even able to set fruit even under hot, humid conditions. Suitable for containers and small gardens. Heat Tolerant. High Humidity Tolerant. An excellent choice for home gardens. Scoville Heat Units: 500.

# HP2439-20 - Nadapeno Pepper Seeds

90 days. Capsicum annuum. Open Pollinated. Nadapeno Pepper. The plant produces high yields of 3" long Jalapeno peppers. Peppers have no heat, have thick flesh, and turn from dark green to deep red when mature. Usually used when green. The pepper has the flavor and appearance of a Jalapeno Pepper. This is an excellent choice for those who want the Jalapeno flavor but can't take the heat. The plant has green

stems, green leaves, and white flowers. Excellent fresh use, for pickling and making salsa. This variety was developed by A. P. Whaley Seed Company. An excellent choice for home gardens. A variety from the USA.

### **HP2237-20 - NuMex Easter Hot Peppers**

85 days. Capsicum annuum. Open Pollinated. The plant produces high yields of small hot peppers. They are hot and turn from lavender, light yellow, to orange, to red when mature. The plant has green stems, green leaves, and white flowers. Grows in clusters of 4 to 6 peppers. Does well in hot and humid environments. A beautiful edible dwarf ornamental suitable for containers, pots, patios, and small gardens. Drought

Tolerant. Developed by the New Mexico State University. A variety from New Mexico, USA.
