

Gourds

GD9-20 - Bule Gourds

125 days. Cucurbita siceraria. Open Pollinated. The plant produces good yields of 6 to 8" long by 6" wide apple-shaped gourds. The entire gourd is covered with bumps and warts. It is pronounced "Boo-Lay". This hardshell gourd is excellent for making crafts. Vines are 15 ft to 35 ft long. An heirloom from France. United States Department of Agriculture, PI 270456.
