

Cauliflower

[CF2-500 - Early Snowball Cauliflower Seeds](#)

60 days. Brassica oleracea. Open Pollinated. Early Snowball Cauliflower. The plant produces good yields of 6 to 8" heads of pure white cauliflower. It is very flavorful, solid, crisp, and tender. Good fresh or steamed. Freezes well. It is a self-blanching variety, but many growers still tie the leaves up and around the head to protect it. Excellent choice for home gardens and market growers. An heirloom variety was introduced to the United States in 1888 by Peter Henderson & Company. United States Department of Agriculture, PI 303134.

[CF7-50 - Igloo Cauliflower Seeds](#)

70 days. Brassica oleracea. Open Pollinated. Igloo Cauliflower. The plant produces heavy yields of 5 to 7" heads of white cauliflower. The plant has large dense leaves that shield the solid white heads from frost. Can be harvested early for mini cauliflower. Great variety for freezing. Cold Tolerant. Excellent choice for home gardens. A heirloom variety from the USA.

[BR16-500 - Romanesco Italia Broccoli/Cauliflower Seeds](#)

75 days. Brassica oleracea. Open Pollinated. Romanesco Italia Broccoli/Cauliflower. The plant produces good yields of lime green cauliflower/broccoli. This is a unique Italian variety with a better taste and texture than other cauliflower/broccoli. It is excellent raw or cooked, it boasts a milder, sweeter flavor than white cauliflower. It has beautiful apple green spiraling buds and is especially well adapted to the north. An excellent choice for home gardens. An heirloom variety from Italy. United States Department of Agriculture, PI 462221.

[CF5-500 - Self Blanche Cauliflower Seeds](#)

65 days. Brassica oleracea. Open Pollinated. Self Blanche Cauliflower. The plant produces good yields of large 9 to 12" heads of white cauliflower. Great freezing and pickling variety. Leaves curl upward and cover the head to keep the sun from ruining the white color. Best when grown in cool weather. Plant early spring or fall for the best crops. Excellent choice for home gardens and market growers. An heirloom variety. United States Department of Agriculture, NSL 82635.

[CF15-500 - Snowball Self Blanching Cauliflower Seeds](#)

60 days. Brassica oleracea. Open Pollinated. Snowball Self Blanching Cauliflower. The plant produces large 6 to 9" heads of white cauliflower. Great freezing variety. The heads are pure white and the leaves curl upright. The leaves will self-wrap during cool weather, but will not in warm weather. Good for both early and late-season crops. An excellent choice for home gardens and market growers. An heirloom variety. United States Department of Agriculture, PI 225853.

[CF8-500 - Snowball Y Improved Cauliflower Seeds](#)

68 days. Brassica oleracea. Open Pollinated. Snowball Y Improved Cauliflower. This early maturing plant produces 6 to 8" heads of pure white cauliflower. A good freezer variety. This is a self-blanching type variety as the leaves curl around heads protecting them from the sun. This cauliflower is known for vigorous and rapid growth and long harvest. It's Suitable for both spring and fall plantings. Frost Tolerant. Excellent choice for home gardens and market growers. An heirloom was introduced by Ferry-Morse Seed Company in 1947. United States Department of Agriculture, NSL 6229.
